Team: Alexa White and Justin Morgan

Example of how to run code:

to build plugin(s):

```
go build mr/mr.go

go build -buildmode=plugin wc.go
```

to compile:

```
go build main.go worker.go fmanager.go
```

to run:

```
./main input_files/pg-metamorphosis.txt wc.so
```

```
Output is stored in directory "output_files"
Sample output:
```

```
Alexas-MacBook-Pro:zip Alexa$ ./main input_files/pg-metamorphosis.txt wc.so
Alexas-MacBook-Pro:zip Alexa$ more output_files/mr-out-000
